President Statement

It is with great pleasure and gratitude that I address you as the President of D-Foot International for the Biennium 2023-2025. I feel extremely honoured and privileged to hold this position and the responsibilities that come with it.

Dr. Zulfiqarali G. Abbas

D-Foot International is truly a global organisation with members from seven regions of the world: Sub-Saharan Africa (AFR), Europe (EUR), Middle East and North Africa (MENA), North America and the Caribbean (NACA), South and Central America (SACA), Southeast Asia (SEA), and Western Pacific (WP) regions.

To effectively maximise our impact on the mission of **"Ending avoidable lower-limb amputations due to diabetes worldwide,"** Prevention is greatly aided by education. Education plays a vital role in prevention and should be simple and repetitive. In my capacity as the president, I pledge to actively champion diabetes-related foot complications management in a financially friendly and accessible manner. My primary focus will be on low-and middle-income countries to further push D-Foot International's mission, goals, and focus of action.

As I always say and would say again: **"Education is the only powerful tool we have, especially in the developing world, which is free of charge for the patients and effective if implemented properly."**

In the coming months, we will be focusing on several key areas. This includes further enhancing our educational resources, such as our flagship projects, Train the Foot Trainer (TtFT) courses, and diabetes awareness week from 7th to 14th November.

I deeply encourage each and every member of D-Foot International to actively engage in the activities, openly share expertise, and contribute to the collective mission of D-Foot International.

FLAGSHIP PROGRAMS Train the Foot Trainer (TtFT)
